

PivotHealth Team Leads Client to Receive Allscripts Technology Award

(Nashville, Tenn., September 17, 2008) -- PivotHealth, LLC, a leading healthcare management and consulting firm, announced today that their management team at Queens Long Island Medical Group (QLIMG) recently completed a highly successful implementation of the Allscripts Enterprise electronic health record (EHR) system and was awarded the “2008 Client Success ‘Connect’ Award” by Allscripts, a leading provider of software solutions used to improve patient care. The Connect Award recognizes leadership in utilizing information technology connecting physician’s practices and healthcare organizations to other stakeholders; thus improving the quality and precision of patient care.

PivotHealth has been providing management leadership to QLIMG since 2005 and the Allscripts implementation has been an important part of its efforts to integrate its clinical and operational information and related communications. PivotHealth and the local management personnel provided planning, training and support throughout the process.

The Connect Award is one of only four awards given out by Allscripts. QLIMG was chosen from among 1,200 of Allscripts’ clients.

This recognition comes after a recent act passed by the United States Congress, called the Medicare Improvements for Patients and Providers Act of 2008 (H.R. 6331), which encourages electronic prescriptions by providing financial incentives to physicians who adopt ePrescribing. This move by Congress underscores the significance of the efforts of PivotHealth and its clients, and the Connect Award recognizes QLIMG for this outstanding accomplishment.
